25X1A

Attention: 

Subject: Transmittal of Addendum to Informal Memorandum "Establishment of Data Entry, Verification, Editing and Approval Procedures for the IIS - Task A(1)d - Under Task Order No. 17, 

25X1A

Gentlemen:

Attached are twenty (20) copies of an Addendum to the informal memorandum referenced in the subject above. The changes indicated in the attachment are designed to comply with the requirements of paragraphs "a", "b", and "c" of your letter of 10 May 1967, subject: Acknowledgement of Receipt and Approval - Informal Memorandum - Task A(1)d - Under Task Order No. 17, 

25X1A

Paragraph "d" of your letter requests that provision be made in the system for (1) Console Typewriters, (2) CRT Consoles, and (3) Line Printers. We concur in this recommendation. Both the console typewriters and the line printers have application in other IIS activities and can be tested experimentally for use in entry, verification, editing and approval. Whether a 3000(+) character display on a CRT console can be justified on a cost-effectiveness basis as compared to consoles with somewhat lesser capability will be a portion of total system evaluation.

We trust that this addendum will satisfy all requirements of Task A(1)d under this Task Order.

25X1A

Very truly yours,

WOH:blm
